## Report of the Selectmen.

---

The Selectmen respectfully submit to the inhabitants of the town their report of expenditures for the town year just closed. It will be noticed that the contingent account has been overdrawn. In explanation the Selectmen would say that the overdraft was made necessary by reason of the fact that the Commissioner of Public Records, Mr. Swan, in the early part of the year directed the purchase of a new safe for the keeping of the current records of the town in the office of the Town Clerk, and by reason of the further fact that the expense of fighting forest fires approved by the forest fire ward during the year has been unusually large.

### BRIDGES.

The work on the bridges of the town has been more than was expected. The bridge near the Wire Mill broke down and an entirely new bridge has been built at that place at a cost of \$591.14, of which Monson pays one-half. The bridge near B. F. Emery's was in such shape that an entirely new floor and one side have been put in. A new bridge has been bought for Three Rivers, and is nearly completed.

# Report of the Board of Health.

The Board of Health respectfully submits the following report :

A glance at the table of contagious and infectious diseases reported to the Board shows a large increase in numbers, Measles and Diphtheria leading the list.

Upon application the State Board of Health has kept us well supplied with Antitoxin, and its general use by the physicians of the town in Diphtheria has been rewarded by very few deaths when compared with the number of cases reported.

The Board has received very few complaints regarding nuisances, and hopes that the people of the town will continue to maintain the same degree of cleanliness in back yards and out-of-the-way places, so necessary to the health, comfort and well-being of a community.

The Merritt case has not been settled, the town of Stoneham and your Board having failed to come to an agreement, the case is now in the hands of the town counsel.

We submit the following tables of statistics :

As the appropriation made last year, to settle with the town of Stoneham was not used, but reverted to the town treasury, your Board would recommend the appropriation of a like amount—eight hundred dollars—in addition to the salaries of the Board.

## REPORT OF THE BACTERIOLOGIST.

SPRINGFIELD, MASS., March 12, 1903.

*Board of Health, Town of Palmer :*

GENTLEMEN,

I have the honor to submit the following report for the year ending February 28, 1903 :

Cultures have been sent for examination during the past year as before. A total of 72 cases have been referred to me for examination, of which 65 were sent for diagnosis, and 7 for release from cases diagnosed as diphtheria without the examination of a culture. Of the 65 cases for diagnosis, 41 proved to be diphtheria, and in 24 no diphtheria germs were found. The positive cases were released almost without exception upon the receipt of two successive negative cultures, thus showing the hearty co-operation of the physicians with the efforts of the Board of Health to limit the infection.

The following tables show the monthly summaries of work done by me during the past year.

Respectfully submitted,

HERBERT C. EMERSON, M. D.,

*Bacteriologist.*

During the past Mr. Fiske who has served the Library Association so acceptably for several years resigned. The friends of the Library owe Mr. Fiske much for the progress that our Library has made during past years and regret that the pressure of business has compelled him to give up the position that he has so well filled.

Special emphasis has been put upon increasing the circulation of books in the several villages. Through the courtesy of (Mr. Hobbs) the Thorndike Co. has had for several years an opportunity to secure books from the library without the expense of going to the building for them. Recently through the assistance of those interested in our library there have been established branch libraries in the school houses of Thorndike, Three Rivers and Bondsville. The experiment promises to materially increase the circulation. It is too early to give any definite statement concerning it.

Aside from books purchased we have received the following gifts:  
 From the United States, 11; State of Massachusetts, 16; Andrew  
 Pinney, 3; James H. Tufts, 1; David Farquhar, 1; Thomas W.  
 Lawson, 1; Towle Mfg. Co., 2; McCormick Harvesting Co., 2.
